MARIO MURILLO MINISTRIES NEWSLETTER

FEBRUARY 2019

A large, diverse crowd of people is gathered for a church service, with many individuals raising their hands in praise. Overlaid on the left side of the image is a 3D topographical map of California, showing its geographical features in shades of green and brown. The map is tilted and appears to be a physical cutout placed over the scene.

LIVING PROOF  
CALIFORNIA

I told the Lord I wanted to reach America. I immediately felt this in my spirit, "Then you must reach California."

The government of California has declared war—war on the Federal Government—war on the Republican Party—war on the church. Now, it has even declared war on science. For that matter, it has declared war on anyone or anything that disagrees with their radical agenda.

How far gone are California politicians? At his own inauguration, Governor Gavin presented neither a vision nor a plan for the nation state—he simply flew into a rant against President Trump and emphasized that California is a total sanctuary state.

Silicon Valley alone possesses

power that boggles the mind. This bastion of technology and social media controls information like no other agency on earth. Right now, social media is an unchallenged mouthpiece to billions for leftist atheists.

Their power to brainwash young minds is beyond staggering. They have the power to shut down any voice they wish—and the voices they shut down are notably Christian, conservative, and patriotic. Facebook shut down Franklin Graham! If that doesn't give you a chill, nothing will. If they won't hesitate to silence the chief voice of Evangelical Christianity...what will they do to the rest of us?

Remember I said they have even declared war on science? Science said the vast

accumulation of underbrush in the California forests needed to be cleared—something nature had done automatically before the vast influx of humanity. Funding for that was overruled by the influence of radical environmentalists. The result was apocalyptic wildfires.

Do they take responsibility for their folly? No, they deflect to their other pet theory—global warming. Like medieval church lords, they'd burn at the stake any scientist who threatens their agenda for world order and their soon coming weather laws.

The same applies to gender. No scientist—especially biologist—will look at someone's DNA and chromosomes and call a man a woman or a woman a man. But here is what the average first

grader—and their parents—face in California: A first grade girl in Northern California comes back from summer vacation and sees her friend Johnny. She says, “Hi, Johnny!” The boy acts traumatized and screams, “My name is Suzy!” Apparently, over summer this little boy came to believe he was a girl.

The real little girl was dragged to the office and interrogated for an hour without her parents notified. She was scolded for misgendering. She cried and couldn’t figure out what was happening. The Bible describes end-time perversion as going against nature...science.

Then there’s the Assembly bill that would come in through the back door to ban the Bible in California. The bill would prosecute any attempt to help anyone out of a gay life. They would call it fraud. It was tabled for now, but count on it—it will be back.

Faith doesn’t matter, fact doesn’t matter, science doesn’t matter and now, outcome doesn’t matter

either. Sacramento politicians are one big never mind. Never mind that California is dead last in education and a slue of other quality of life categories. Never mind that they are spending like a thief with a stolen credit card. Never mind that innocent people are murdered by illegals they protect from being arrested.

California politicians, tech moguls, Hollywood and media have made an unmistakable declaration. They will remake America in the miserable and decrepit image of California. They are the black hole that can suck a nation into its abyss.

What can we possibly do about all this? What we do is put our natural mind aside and obey God! What God says will stand. What God commands will triumph over the enemy.

Never forget that California has been the catalyst to historic revivals and has launched worldwide Christian ministries. Those wells are still in the heart of California.

Five years ago, while preaching in Stockton, I had a vivid dream. I saw Highway 99. I saw it from just north of Sacramento all the way to Southern California. This main artery of the great central valley

is special to God. In the dream I saw a river—Ezekiel's river flowing with great healing properties, trees of righteousness on both banks. The voice in my dream said, "This is a corridor of glory."

That dream has lain dormant in my spirit until now, when God said, "If you want to reach America, you must reach California."

Here and now, I am announcing to you Living Proof California. Living Proof will follow the route I saw in my dream. We will set up our tent in key cities starting in the north and working our way south along Highway 99.

If you live in or near the cities of Marysville, Sacramento, Modesto, Turlock, Los Banos, Fresno, and Bakersfield listen carefully: the tent is coming to a site near you. It all begins March 10th in Marysville and will continue south like a mighty river of healing and salvation. Will these crusades turn California around? That is totally in God's hands. What I do know is the Lord will hit demons hard in California. All we can do, and must do, is obey the voice of God."

I am asking you to obey God by starting to pray right now. Pray for favor to finalize our permits on the very best sites. Pray for the workers to come into the harvest. Pray for protection as we expect high resistance from the enemy. Pray for abundant provision because we will be investing massive amounts of money to make this invasion possible.

The urgent message of this newsletter is this: The best way to touch America right now is to invade California. I couldn't understand that at first, but now I

do. It is the way of God to take the fight directly to the main threat. I am hoping, with a great hope, that you will see this.

*Acts 4:29-30 says, "Now Lord Behold their threats and grant to your servants that with all boldness they may preach Your word while you stretch out Your hand to heal and let signs and wonders be done in the name of Your Holy Son Jesus."*

California is a great threat to America. This state may have deep perversion and intellectual arrogance, but none of these things can withstand the mighty power of God. The Holy Spirit is at work to empower and guide a mighty invasion of California's Central Valley. Pray! Get involved. I feel a miracle on the horizon.
