MARIO MURILLO MINISTRIES NEWSLETTER

APRIL 2016

**EVERYONE  
KNOWS THAT  
AMERICA  
IS IN  
DIRE NEED  
OF A  
SUPERNATURAL  
AWAKENING...**

Here is how we advertised the World Convention:  
**“Everyone knows that America is in dire need of a supernatural awakening. The power and the plan for such a miracle must come from the Holy Spirit. He has the only plan and the only power that will work.**

We are surrounded by prophetic words that promise a massive harvest but what will touch off the explosion that will sweep millions into the Kingdom? And how would we function during such a miracle?

We are certain that He has shown a plan and a path to power that we want to share with you.

The old methods no longer work. Preachers are desperate to break out of molds that are holding back their effectiveness. It is our deepest desire that this world convention ignite fires of momentum for continual harvest in every ministry that comes to this event.

Talk is cheap. Ranting and raving about what is wrong with America is a placebo—a sugar pill that does nothing about the disease that will soon—without a miracle—kill America. I am in the unshakable grip of

a conviction that I must take drastic action... so I am calling for an emergency meeting.

I am calling you to three days of drenching from Heaven that will transform you into an effective weapon. How can our Living Proof World Convention possibly deliver on such a promise? The answer lies in three powerful elements: PURITY, PRAYER AND POWER. You will be convicted but not condemned. You will receive joy unspeakable but not mindless emotion. You will gain direction but not manipulation. You will obtain encouragement that lasts, insight that works and power that overcomes evil. You will embrace reformation, not mindless information.”

Did we keep our promise to the people? Was this convention everything we hoped it would be? Well, here is your headline:

**Todd White creates a mass addiction to one-on-one, miracle soul winning. Lou Engle performs a collective heart transplant with the fire of God as his surgical tool. Chris Burns and the worship weapons shift the atmosphere, translating us all to the throne of God.** In just 72 hours, people were utterly ruined to lesser living and powerless outreach. They did not simply learn about LIVING PROOF. They became LIVING PROOF. These are not just my words. The people who were there would get in line to tell you that they will never be the same.

Here is what attendee Sandee Wichkoski said:

*Richly blessed at the recent Living Proof World Convention in Houston. Each session built upon the next and the speakers were perfectly ordered to build a progression into a place of consecration for truly understanding the need this Nation has for God.*

*The worship with **Chris Burns** was amazing and absolutely essential to opening the atmosphere needed*

to accomplish the goal of heaven for this gathering. This wasn't a "come listen to good worship, a message and get hands laid on you so you can feel good about your Christianity". It was a direct challenge to get real and take your place in the ranks of the radically obedient.

**Todd White** started on Thursday night sharing his testimony. As he progressed through that it led to a hard reality of living in compromise: those around you see the wrong reflection of Jesus, a reflection that can affect them for eternity. As Todd closed he invited those who were living in compromise and compromising their witness of Christ to come forward and settle it at the altar. Before he even finished the invitation people were getting up and rushing forward, weeping and crying out to the Lord. I was sitting back by the sound booth and it looked like over half of the congregation had gone forward.

This repentance in the church among those who name the Name of Christ was an important first step and essential key to being able to see and step into intercession with authority for this Nation which is what **Lou Engle** brought to the table on Friday evening. Lou's message of surrender to the deeper call to empty ourselves for the sake of the Kingdom was a challenge to live differently, speak differently, and understand differently. His message requires that place of repentance, which simply means to turn and think differently, and consecration. It's not about us, it's about Him and His Kingdom in the earth.

That led to Saturday with **Mario**, seeing His Kingdom on display in word, signs, wonders and miracles and the challenge to get hungry enough to seek after that same manifestation in our own lives, as that is the mark of a believer (Mark 16:17-18). There was a rich deposit of history with God imparted...not only from these men as

a group but especially from Mario. There was a tangible covering and impartation from a Father of Revival that wasn't a laying on of hands, rather a corporate mantle that was gently laid across the people. An invitation to risk waking up to find ourselves clothed in power to bring tangible change to the world around us."

They became  
**LIVING PROOF!**

At our world convention, thousands caught our fire! MMM was born in fire. From the jump we faced persecution at the University of California. The instant we hit Berkeley, we had to decide. What would we preach? If our message was not clear and anointed, the crucible of Berkeley would have blown it to smithereens.

The power of God came to our aid each time the ministry was threatened. Something out of this world would always step in, providing words, resources, ideas and miracles exactly when we needed them.

Not once in that cauldron of revolution did we feel the need to rebrand Christ or present a new and improved gospel.

Continued →

Today, a rising tide is calling for Christians to “keep your faith to yourself.” Many modern pastors, including the Pope, have joined the chorus asking Christians to “tone it down.”

We violently, totally and utterly disagree with the notion that we should tone down the Gospel in America. There are millions of innocent bystanders who have not rejected Christ. **The answer is not to tone it down, but to turn it up!** We were able to recruit many at this convention to join the fellowship of the fire!

The same Holy Spirit that outfitted us to face the city of Berkeley will equip us to mount a fresh invasion of our nation. Now we have

gained a new generation of fellow invaders!

This is what we thundered from the World Convention: We cannot judge other ministries. We can only answer for what God asks us to do. He has ordered us to take a stand. We must take a stand against Satan’s agenda for America and we must take a stand for the Gospel of Jesus Christ.

America has a drug, divorce, suicide, anger, and atheism problem. Our voice needs to be heard because we carry the most immediate and effective cure for everything that is hurting America. The Angel is reinforcing to the disciples that their message is valid and urgent.

We do not carry an obscure message that should be whispered in the secret places of society. We must go where the people are and where the biggest lies are being told.

**There is life when you preach the blood of Christ, the cross and the resurrection. No cunningly devised sermon can match the impact of the simple Gospel.**

The World Convention allowed us to multiply our army. Thousands are joining us now. They are beginning to march alongside us in the campaign to rescue America.

**HIS TRUTH IS MARCHING ON!**
