**The most
Important
Letter I have
EVER written**

Precious Partner in the Gospel of Jesus Christ,

This is the most important letter I have ever written in my life. How can I justify that statement to you?

It is the most important letter because of what has just happened. For a brief and shining moment, God has had mercy on America. Suddenly, the cruel political correctness that was choking the life out of our nation has been broken.

You can say Merry Christmas. You can pray in public. Ministries can use meeting halls on campus. Leftists can no longer get away with calling anyone they disagree with a racist. You can challenge media lies and they will back down. Free speech in soul winning is back!

Trump said things that everyone assumed you could not say. The media, the Democrats, colleges and universities and all the usual suspects warned him, "Say that

and you are dead!" Not only did he not die...he became president.

This momentary mercy is temporary, fragile, and comes with grave danger. If we blow this opportunity, something worse will overtake us. Your children and grandchildren will face an unimaginable horror.

We are in danger because the left—stung by the election—is already plotting to launch a massive retaliation. Universities, billionaires and tech companies are ramping up their rhetoric, paying agitators to target the church.

The media—though utterly discredited for lying and colluding with Hillary Clinton—is arrogant and delusional. Soon they will ramp up a new assault on free speech.

But the most dangerous threat is Christian apathy over Trump.

They see him as a savior and a type of King Cyrus. They see history repeating itself. But here is the

rest of that history. Cyrus indeed liberated the Jews, but after that he was not much help.

Not only this, the Jews faced violent opposition from outside and complacency and corruption among their own. It took Israel 80 years to be restored.

I beg you, hear me now! WE DON'T HAVE 80 YEARS! This is our last chance. Trump is only a foot in the door—a stay of execution. Trump buys the church time to repent and return to her rightful influence on America.

Trump proved the power of rallies. Conventional wisdom said Trump would lose because he didn't have a ground game. They said he was foolish to rely on events that fired people up. However, those rallies gave people hope. They were patriotic. They confronted the issues that face people every day. They caused people to vote!

Mario Murillo Ministries just had a Living Proof rally in Bakersfield. A young girl in the back was targeted by the love and power of God. The Holy Spirit gave me vivid details of her condition. The oxygen went out of the room as youth beheld the power of God. It touched off a volley of miracles and a harvest of souls in a way we have never seen. The pictures you see are from that rally.

Two irresistible forces have come together to ignite a raging fire of urgency in my soul. It is this fire that compels me to write you the most important letter in my life.

The first force is the unique power of our rallies. There is literally nothing out there like these rallies. Word, music and atmosphere combine in a way that is for this hour and for this generation.

The second force is this temporary opportunity. I know the night is coming where no man can work. I know if we do not

violently take the Kingdom right now, we will doom those who come after us.

God spoke these words to me, "Choose ten cities. Invest one million dollars to overwhelm them with My Gospel. It will start a movement." I am asking you to give toward that one million dollars. I am asking you to help start a movement.

What I am asking you to do is to become an extravagant giver.

We usually think an extravagant giver is a very wealthy person who occasionally gives a big gift. However, the fact is that anyone who loves Jesus and is following Him has the power to be an extravagant giver.

Jesus proved this when He pointed out the widow's mite. Jesus said, "This widow has given more than all of the others because she gave everything she had." By this, Christ showed us that an extravagant giver is not defined by the size of their gift but by its proportion to their income.

I recently opened a letter that made me weep. Mary said, "I am giving you \$5,000. It is all I have. It is my widow's mite. I don't understand why others do not see how important the work is that you are doing for our children." The return address told me that she lives in a humble apartment.

Her sacrifice cut me to the heart. It also made me bold. It is in love and boldness that I beseech you now. You were chosen to live in this explosive time for a reason. God prospered you for a reason. You and I are in this for a reason.

We must give in a way we have never given before because we are in a crisis we have never faced before.

While there is still time—and millions are sick to death of the anti-God crowd that is offended about everything—we must preach! While young hearts

collapse under the weight of modern life and beg for hope—we must flow in the power of the Holy Spirit.

One million dollars will multiply our impact tenfold in 2017. We cannot give a regular gift. There are those who will be chosen to give \$100,000—others \$50,000, or \$10,000.

No matter what amount you give, God will extravagantly reward your bold faith and sacrifice.

This is the most important letter I have ever written because it confronts the greatest danger we will face in our lifetime. This is one of those rare occasions like the Civil War and Pearl Harbor where being a Christian and being an American intersect. We face the inescapable duty to obey God and save our nation.
